This year Arlington spent \$4,964 or 73 cents per pupil, while the average of the control group was \$1.24 per pupil. This is the first time and the first important item where I have been able to report the Arlington expense figure as below the group average. However, the average per annum book expense for the

Town Gets Little For Welfare From Horse And Dog Racing Levy

(Special to the NEWS) STATE HOUSE, Boston - Re turn to cities and towns of a portion of revenue realized from the state levy on horse and dog racing hardly makes an impression on the \$188,122 annual welfare expenditure of the local relief

Under statute, the return to the municipality is 50 per cent for old age assistance and the re. mainder for general welfare.

The 1935 return according to the racing commission's report is set at \$3125.50 which must be divided between the two sources

With the added tax recommended by the special recess commission on taxation and the dog

racing tax increase proposed by the Governor; additional funds will be made available. The town of Arlington which received \$3125.50 in 1935 as its portion of the revenue from horse

and dog racing is scheduled to receive in 1936 an additional \$133.25 as its portion of the reimbursement. Total receipts from horse

dog racing last year were \$1,400. 000 with a return to cities and towns of \$350,000 made on estimated collections.

The difference between the es timated returns to the state and actual tax collections being \$15 .-916.35 represents the basis of a reimbursement to be made in the current year.

Town Meeting Members Absent From Duty Are

Criticized By Voter

To the Editor:

Recently the town of Arlington sent out warrants for a spec.

In meetings last year it was evident that the members conchoice and as a result had the laws they saw fit to choose. One of which refused the right of a as great as the popula- voter of the town to speak at town meeting.

At practically every meeting it was evident that some few who were elected to office were never present. They held the office for what little glory it offered.

Out For Town Clerk

Editor, Arlington News: After giving careful thought to the earnest solicitations of many prominent citizens of Arlington, I wish to announce that I will be a candidate for the office of Town

Clerk at the coming election. Twenty years' training and experience in general office administration and supervisor of personnel has qualified me to com. petently execute the duties of the office I now aspire to.

If elected, I assure the citizens of this Town that I will devote my best efforts and ability to fulfill the requirements of the office of Town Clerk. Very truly yours, John T. Robinson

The political situation is warming up. Various ones are announcing their desire and intention of running for office and there may be stil more before the final date for filing papers arrives. The big prize for any one seeking office is the endorsement of the Citizens Committee and in-as-much as they can only endorse one person for a given place somebody gets sore. I suppore more people have run for office in Arlington because they were sore at something than because they really wanted to serve the Town. People have run for School Committee because they got sore at something that Committee had done-and been elected too. The same is true of Public Works and most other departments. Look over the list and see

if you can spot the sore ones. course that doesn't mean that all persons running against the endorsed candidates fall within the sore class. Some are simply seeking a chan e to do the job. Do you remember the time when the Civic Committee was functioning? Whichever side you favored in those days it did stir up interest, and it got out the vote. A real good political scrap seems to

be enjoyed by all. P. S. The Tax Payers' Associa-tion gave the Board of Public Works the works, the Board came back with a "wallop." According to-one or two of the Directors of the T P A the slam at the Board was unauthorized and unknown to them. When figures are used be sure to get the right ones. However one slight slip should not be held against the Tax Payers' Association. There is plenty of need for it. It can help every tax payer in the town, it could be of great aid to our Finance Committee and if it will co-operate with the Departments could be of aid to them. But it will not be a bit of use to anyone without your

BOY SCOUT WEEK

Once again the interest of the public focuses on the Boy Scouts of America who will celebrate with appropriate ceremonies their twenty-sixth anniversary, during the week of Bebruary 7th - 13th. The Scout Oath, to which over a million Scouts and Scout Leaders will rededicate themselves all over the country on the evening of February 8th is one which is nobly exemplified in the life of the Great American. It runs as follows:

"On My Honor I will do my best: 1. To do my duty to God and my country, and to obey the Scout Law;

2. To help other people at all times; 3. To keep myself physically strong; mentally

awake, and morally straight." It is well that those who grew to maturity before there was a Scout Movement, should pause and ponder at this time, how rich a contribution the Movement has made, not only to our youth but to the nation itself. We can none of us cherish a better hope for the America of tomorrow than that it should rest in the hands of such men as these Scouts are being trained to be, "physically strong mentally awake, and morally straight," intensely patriotic, already active as "participating citizens" in all sorts of community and national service, but bound by no narrow bonds of sectionalism, race or doctrine. "A Scout is a friend to all and a brother to every other Scout."

The Scout's Law is based on a fine social code of conduct and attitude, enjoins upon him in a positive way, honor, courage, loyalty, responsibility, kindness and helpfulness to all, reverence to God and service to man. And these valuable traits are inculcated in him, not by abstract preachments but by real life experience, in camp and on hike, at Troop meeting or Jamboree, playing the Scout Game, wherever he is, "Learning by Doing."

Calvin Coolidge once said, "If every boy in the United States between the ages of 12 and 17 could be placed under the wholesome influences of the Scout Program and should live up to the Scout Oath and Law, we would hear fewer pessimistic words as to the future of our nation."

SHOULD THE TOWN BUY AN AMBULANCE?

-Last week's editorial in the NEWS pointing to the urgent need of a municipal ambulance for Arlington which must now carry its accident victims to the hospital in a patrol wagon has aroused considerable discussion. The day. question naturally is, "Can we afford it?"

Where the saving of life is involved, there seems little doubt as to the wisdom of any expenditure. The open patrol wagon now used as an ambulance in emergencies is not suitable as a conveyance for the sick or injured.

Patients would stand a far better chance of life if conveyed to the hospital in a closed ambulance rather than in the open car now being used. A new ambulance need not be of the most expensive type, although we understand that Belmont has a modern ambulance which cost approximately four thousand dollars.

Assuming that Arlington were to buy an ambulance at this price - which would guarantee the most modern and substantial type used, the estimated cost added to the tax rate would be seven cents. The majority of our taxpayers are assessed, on an average, for six or seven thousand dollars in real estate. On this basis, the average real estate taxpayer would contribute 42 cents toward the purchase of an ambulance of the best type known.

The question, we repeat, is, "Can we afford it?". We believe Arlington can, and we urge that action be taken to insert an article in the warrant for this appropriation at the annual town meeting.

Senator Daly Votes Against McKeown's Car Insurance Plan

(Special to the NEWS) STATE HOUSE, BOSTON, Feb. ruary 4 — Senator Charles T. Daly today opposed substitution of the McKeown proposal to abolish the defence of imputed negligence for children under 15 years of age, as the Senate accepted the adverse report of the committee on the Judiciary.

Senator McKewon earlier in the session sought to cut the age limit from 15 to seven, but failed in that move, when the Senate turned down his request by a

vote of 16 to 15. Senator Daly refused reduction of the age limit.

A move was made to return the measure to the committee on judiciary for further consideration, but Senator McKeown opposed the action, recommended by Senator Frank Hurley of Hol-

"Not Over Club"

A definite relationship exists between the speed at which you travel on the open highway and your speed through cities and towns, according to Henry G. Wilton, who is the local manager of the "Not Over 50" Club, the new automobile safety organiza-

"Traffic engineers state," Mr. Wilton said, "that the man driving on the open highway will slow down from 15 to 25 miles an hour or more from the speed at which he has been driving when entering the town.

"In other words," Mr. Wilton added, "if you drive 50 miles an hour on the open highway, you will have a tendency to slow down to approximately 30 when entering a town or city and reduce speed still further in the business district. Thus you will be inclined to come within the general range of the speed laws of such communities.

"On the other hand, the motorist who drives at the rate of 60 or 65 miles an hour seldom slows down sufficiently when entering Abuse Of Alcoho! a city," Mr. Wilton concluded.

The "Not Over 50" Club has been organized by the Lumbermens Mutual Casualty Company, one of the largest automobile in. surance companies in the country, and is pledged to reduce traffic accidents through the reduction of the speed at which members drive. Members agree to observe a safe driving creed and to limit their speed on the open highways to 50 miles an hour. Although organized but a short time, the Club has already secured thousands of members, its sponsors say, and has developed a wide following here in Arlington and throughout Middlesex

No decrease in welfare cases is in sight, according to Clifford W. Cook, local Welfare Agent in a talk before the Rotary, club last

Wednesday noon. The number of families now on welfare is about the same as two years ago, he said, and this was kept at a normal level only be-cause of federal relief work. Last year 803 families were on the welfare at a cost of \$219,000, \$72,000 of which was reimbursed by other

cities and towns. was held yesterday noon at Wyman's English Tavern.

The principal speaker was Lieut Governor Geo A Morin, who spoke chiefly of a big New England Kiwanis affair to be held at the Boston Arena, Friday evening, Feb 21st, in aid of the Underprivileged Children Fund of the Kiwanis Clubs of New England.

This is to be an eventful occa-

This is to be an eventful occa-sion with many features of interest to all Kiwanians and their friends. The Freshman and Var-sity basketball teams of Rhode Island State and Northeastern University will play their final games at this time. There will also be two women's basketball teams of Roston schools who will play at that time. Northeastern University band of sixty pieces and the Rhode Island band with over fifty pieces, in addition to a fifteen piece orchestra will furnish the music for this occasion. After the basketball games, dancing will follow for the remainder of the

evening.

The Kiwanians plan to make this an outstanding occasion and expect a large attendance. Re-served seats will be \$1 and unre-served 50c. Local Kiwanians will have tickets for sale and it is expected that a large delegation from Arlington will attend. City and State -executives are

expected to be present and will take part in the grand march. Dr Hand gave his report for the bowling team and reports Elmer Anderson as having the highest score for last week's performance.

Taxpayers

tion has said, "One third of all Massachusetts real estate is today foreclosed or foreclosable."

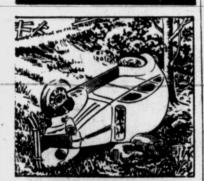

According to the local Taxpay ers' organization, the Taxpayers Associations in Massachusetts are fighting to restrict expenditures and consequent taxation. There is a great need for these Associa. tions and they are actively func-

tioning all over the state.
Individually, a taxpayer can do very little about the present disastrous conditions. But a great deal can be accomplished through combining the efforts of the taxpayers in fighting the present evils. The Arlington Taxpayers' Association believes that an enlightened, intelligent and alert public opinion can always control its own government, local, state and federal. To further the endeavors and the aims of persons who believe this to be so, the Association needs every taxpayer's support. For in the final analysis the sole object is to maintain and develop an efficient government

at the lowest possible cost. If the local Association can in any way reduce local expenditures by \$10,000, it has saved practically 15 cents on every \$1000 valuation in town. Joining a taxpayers' association is not a contributionit is an investment in tax insur-

CHURCHES OF CHRIST,

"Spirit" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scienist, on Sunday, February 9.

The Golden Text is: 'T'he Spirit searcheth all things, yea, the deep things of God" (I Corin. thians 2:10). Among the citations which comprise the Lesson-Sermon is

the following from the Bible: 'There is therefore now no condemnation to them which are in Christ Jesus, who walk not after the flesh, but after the Spirit. ... For they that are after the flesh do mind the things of the lesh; but they that are after the Spirit the things of the Spirit. For to be carnally minded is death but to be spiritually minded is life and peace" (Romans 8:1,

The Lesson-Sermon also in cludes the following passage from the Christian Science text-Science and Health with Key to the Scriptures" by Mary Baker Eddy: "To ascertain our progress, we must learn where our affections are placed and whom we acknowledge and obey ing nearer, dearer, and more real to us, matter is then submitting to Spirit. The objects we pursue and the spirit we manifest reveal our standpoint, and show what we are winning" (p. 239).

Townsend Plan To Help Young People, Believed

Dr. Thayer, of Salem, told the members and friends of the Arlington Townsend Club Tuesday evening, that the younger people would really receive the greatest benefit from the Plan when it becomes a law, for they have years of good wages ahead, opportunity for better education for themselves and their children, freedom of home planning without the extra burden of parents, who will be ably provided for by the Trust fund; and a bright future, without the fear of poverty

He is of the opinion that everybody would be willing to set aside 2 cents of every dollar spent, if necessary to insure comfort and happiness, in their declining

The Townsend Movement is not especially to provide for the old-er people, but through them, to give employment to the younger folks. In so doing, it would shift the idle class from the young people who are eager to work. for without work, even hope disappears, to the older people who have earned a rest period by their many years of labor in building this rich country of ours. That is why young people are interested in the Plan, the speaker

In making the people 60 years and over, trustees of the necessary fund (\$200.00 a month, to each one eligible) to keep the wheels of industry turning, every business and profession would speed up to capacity. Dr. Thayer said there are not enough dentists in the whole country, (he is one) to them, when prosperity comes; for there is hardly a person to be found, young or old who does not need dental work right now.

Industry needs buyers, the older people need an easier job, we therefore employ them to circulate this fund, and by so doing as. sure another person of a steady job and good salary. The Townsend plan will save the Nation by putting and keeping money in circulation. We have reached a crisis and the particions, not the politicians, must decide the issue," Dr. Theyer said.

Ralph Higgins has been ap-pointed Regional Director in place of Dr. Clinton Wunder, who will do lecturing only, throughout the country, on the Townsend Plan. He is a man of vast experience and ability in the lecture field.

A list of merchants and business people in Arlington, belonging to the club was read at our meeting so they may be patron. ized by members.

Many activities are being arranged by the ways and means committee, such as teas, bridge parties, food sales and other gettogether meetings.

A meeting of the 5th Congressional District Board will be held in Stoneham on Friday evening. and a meeting of the officers of all the clubs in this district and the Board will be held on Sunday afternoon in Billerica.

> TESTIMONIAL TO "BILL" LOWDER February 18, 1986

Get the crowd together, obys, and make the rafters ring; Let us shout for Lowder, boys, and all his praises sing.

There is not a finer man there is not more loyal friend; He's a man who's earned our love, and we'll love him to the end.

Think of all he's done for sport, all he's done to build you true! When you thought the game was

it was Bill who pulled you through.

It will fill his heart with cheer, and his hope and faith renew, It will add to his esprit, knowing we will see him through.

Come on boys, now all together, let us make the rafters ring; Let us do the grand thing NOW. "Lowder!" Lowder!" let us sing. Earl A Ryder.

Daly Opposes Sale Of Electric By-Product

(Special To The News) STATE HOUSE, Boston, Feb. 6 Senator Charles T. Daly, today aided Senator Thomas M Burke of Boston in his move to prevent the sale or purchase of steam which is a by-product of electricity.

ing the debate, Senator Burke assailed the management company and the profits it accrued from the sale of the by-product.

The opening gun of six power and light bills of his authorship which appeared on the calendar with adverse committee reports was forced to a roll call after two a by-product of electricity.

The bill is aimed chiefly at a Boston utility company and dur-vote of 15 to 11.

Value of Scouting Shown By Committee

To the Citizens of Arlington: After a careful study of the work of Sachem Council in behalf of the boys of this community, we, the undersigned have organized a 'itizens' Committee to present to he public the value and the need of the Boy Scout Program.

While this program is reaching large number of boys in the area served by Sachem Council, a recent survey shows that many more boys would like to become Scouts. They and the community would benefit if they were able to

The Cub Program, which is the official organization of the Boy Scouts of America for younger boys, is desired by an even greater number of boys. This program offers an equally valuable asset to the community.

There are at present more than 1200 Scouts and 25 Cubs in the Council area. This number might well be doubled. Such a result can only be achieved by the organization of more Troops and Cub Packs.

We have made a careful analysis of the proposed objectives of the Council and are convinced that with adequate financial support real progress can be made

Lack of adequate financial resources has been the greatest limiting factor during the past

While the amount to be raised y the coming campaign may seem large. we are thoroughly convinced that every item in the budget is completely justified; and we believe that in the light of juvenile delinquency figures locally and elsewhere in the country, the community will receive real dividends in reduction criminal costs.

Because of our sincere belief in the value of Scouting we request that every citizen who is approached for a contribution give as generously as he can; and that any one who might not be approached will take it upon himself to send a contribution to the Council Office in the Old Town Hall, Arlington, or to any member of this committee.

Says Newspapers Are Best Advertising Medium

Newspapers were urged as the best medium for testing the value of an advertisement by John Caples, prominent New York advertising copy writer, at a meeting in the Boston Chamber of the Financial Advertising Association this week.

Mr. Caples said that in this re. spect the newspapers are far more effective than, for example, magazines. He pointed out that among other reasons for this is the gutckness with which advertisers can operate through the newspapers.

aid. Nevertheless, the fact remains that Arlington spent 131 per cent more for this purpose than is justified by the experi-

ence of the control group. Ability to Pay vs Cost Thus far our investigation has been confined to comparison of costs. We have compared Arlington's expenditure with that of the 17 other communities most like Arlington in valuation, school membership and population. The comparison is sound. All of these towns, whether richer or poorer than Arlington, buy their instructional service text books, janitor service, repairs. etc. in the same market, and their costs are justly subject to

comparison. But Arlington is ahead of some of the group in its ability to pay; therefore I propose to take from the control group of 17 communities the 10 wealthiest communities and compare Arlington with them.

For this purpose I will use three columns from the State Report: 1st. Column 32: This shows pense under this heading. Medshows the valuation per pupil of average school membership for the period that we are studying. In other words it shows the valuation of the town divided by the number of pupils in the schools and is, therefore, the very best measure of the available wealth of the community for school purposes.

2nd. Column 39: This shows the expenditure from local taxa. tion per pupil. Please note that it is expenditure from local taxation only. The expenditure per pupil of money received from all sources usually runs \$8 per pupil higher than the figures in this column.

3rd. Column 34: This shows the expenditure for school support from local taxation per \$1000 of valuation. It is a very accurate measure of the financial sacrifice made by the com-
